EXPLORE WITH US

SCHOOL-AGE DANCE PROGRAM AGES 7-11

Designed for elementary school students to further their exploration of and love for dance. Students discover how and why they like to move while mastering foundational skills and vocabulary in tap, ballet, jazz, lyrical, and hip-hop. Students are strongly encouraged to take at least two classes in different styles.

As these students approach middle school, they have the opportunity to meet with Miss Deb to discuss different paths their dance journey might take. Whether they want to pursue dance as a career, enhance their love for musical theater and performance, build endurance and coordination as an athlete, or just join us each week because they love it, we're here to help them grow with confidence that shines in and out of the studio.
